When Dependability Matters...

Count on MGM Remote Cylinders

Introduced 50-years ago as the world's first spring-actuated parking and emergency brake actuators for commercial vehicles, the MGM R4 and R5 Remote-Mount Cylinders have registered millions of miles and millions of hours of service in many diverse and harsh applications, such as: dump truck/trailer end-gate actuators, emergency brake actuators on massive logging and commercial fishing winches, and numerous other special applications where there is a need for a dependable, rugged, light-weight pull-type actuator.

Built durable for tough jobs!
